Program Overview

PRICE

\$4,850

DURATION

8 weeks

FORMAT

Hybrid

LEVEL

Intermediate

Ship cross-platform apps to iOS and Android. Navigation, state management, native modules, and App Store deployment.

This professional track is structured for adult learners who need practical, career-relevant depth without academic abstraction. Delivered as a hybrid experience, the course combines guided milestones, implementation reviews, and applied exercises aligned with modern AI, engineering, and technical leadership work.

Outcomes

- Build cross-platform mobile apps with React Native.
- Handle navigation, forms, state, and platform-specific considerations.
- Integrate native capabilities and understand mobile deployment flow.
- Ship a complete mobile product prototype to store-ready quality.

Includes

- 8 hybrid weeks with emulator labs and app publishing guidance.
 - Reusable mobile UI patterns and navigation templates.
 - State management and API integration examples.
-

- Deployment checklist for iOS and Android release workflows.

Syllabus

WEEK 1

React Native Fundamentals

Understand the React Native runtime and how mobile UI differs from the web.

Topics: Core primitives, Layout, Development tooling

WEEK 3

Navigation and State

Design mobile flows that feel intuitive and stable across screens.

Topics: Navigation stacks, Forms, Client state

WEEK 5

Native Integrations

Bridge toward device capabilities and production app behavior.

Topics: Permissions, Device APIs, Performance considerations

WEEK 8

Release and Store Delivery

Package, test, and ship your app for real-world distribution.

Topics: Build pipelines, Store submission, QA checklist

Instructor

Isabella Cruz

Isabella builds product-grade mobile apps and teaches web developers how to transition into polished native-feeling experiences.

This Blootou Intelligence syllabus is an admissions overview for planning and evaluation. Final cohort dates, live session timing, assessments, and platform access details are shared in the welcome packet after enrollment.
